# WHAT TO WEAR TO YOUR CHRISTMAS 2021 PHOTO SESSION

Here are a few wardrobe tips to help you look stylish.

- Basics - Wear colors that flatter your skin and hair, as well as choosing colors that *coordinate with your family without being overly matchy.*

- Colors - A trick to keep in mind is to think about your location. If we're going to a field full of wild flowers and greenery, you don't even need to dress in color. Light or neutral colors compliment colorful locations. A simple location with a wood fence and pine trees might pair well with rich colored outfits.

- Body type - Dress for your body type. I find that flowy, yet fitted fabrics look fantastic. Don't be afraid to accentuate your shape - this goes for men as well! When buying outfits for your children, always choose well-fit clothing instead of something they can grow into later. Show off your favorite part of your body and you'll end up feeling confident!

- Shoes - Select comfortable shoes for your photoshoot. This session will be in a Farm and you maybe have to walk a little bit to find my spot.

- Comfort - Never wear something that makes you feel uncomfortable. If you love wearing maxi dresses, wear it! If your husband prefers a button up with the sleeves rolled up to a blazer, he WILL shine brighter in his photos.

- Stylish - My last tip, and most important. Dress extra special! Yes, it's that simple. I, personally, love jeggings and sweaters. They're comfortable. But if I'm spending time, energy, and money on a photo session for my family - I'm going to take the time to pick out something special for each family member. I'm going to pick an outfit that takes me a step up from the every day. But I'm not going to stop there. I'm going to think about jewelry, shoes, and other accessories that will really make my outfit look complete.

Use Pinterest, this is an amazing tool that I use every single day to find ideas for my setups.
